910-308-3896 | gaddys10@gmail.com | github.com/gaddys10 | syrusgaddy.com | Active Top Secret Clearance

Skills

Programming: Angular, CSS, HTML, JavaScript, Python, React, React Native, RESTful APIs, SASS, SQL, TypeScript

Tools/Other: Express, Cypress, Git, GitLab, Kubernetes, Node, Prototyping, Redux, Test Automation

Experience

Senior Software Engineer, General Dynamics

Oct 2024 - Present

- Developing and testing Node web application as technical lead of 8 member team to create and display Helm charts with CSS, JavaScript, React.js, and TypeScript UIs, providing an entity management solution to DoD stakeholders
- Creating Docker containers and their pytest automation using multi-stage builds to independently run PostgreSQL, ElasticSearch, Kafka, & Redis services with Docker Compose to ease development flow and improve project integrity

Software Engineer, Cisco Systems

Jan 2023 – Oct 2023

- Developed Webex chatbots to streamline employee desktop Mac, Windows, and Linux device onboarding, refreshing, returns, & health reporting with botkit, Flask, Git, JavaScript, Nest.js, Node, NLP, Python, Snowflake, Spinnaker, & YAML
- Reduced project code by 40% by creating an OS-agnostic Webex chatbot management solution and RESTful API suite with Docker, Flask, Helm Kubernetes, MySQL, Python, & pytest automation to display integrated device status reports

UX Software Developer, ARCOS LLC

Oct 2021 – July 2022

- Built TypeScript-based React Native & Angular front-end UIs for Mobile Workbench, Callout, & Crew Manager SaaS iOS, Android, and web resource management apps to manage utilities for 141,000+ Connexus Energy clients as of May 2022
- Integrated newly acquired workforce management software authentication with current applications by developing a React-based single login solution from scratch as sole developer with CSS, Express, Figma, HTML, JSX, and TypeScript
- Launched form builder product development and allowed clients to generate customer solutions with sensitive data while reducing administration costs by creating early product design prototypes with Adobe XD and Figma

Software Technical Lead, MAG Aerospace

March 2021 – Sept 2021

- Earned 1 year DoD contract extension by leading information management web application redesign including a new UI, messaging, alerting, and real-time data display for a 4-member team with CSS, JavaScript, Meteor.js, and MongoDB
- Improved Meteor.js web application rendering speed by 20% by leading the integration of React.js component-based architecture and React Hooks to simplify state management & optimize data retrieval from MongoDB NoSQL database
- Led team's product UI design by creating weekly prototypes to demonstrate product development to DoD client, gain project requirements, and strengthen project documentation with Adobe Photoshop, BrowserStack, and Figma

Software Engineer, MAG Aerospace

Jan 2020 – March 2021

- Developed Node information management web app dashboards and databases by using CSS, HTML, JavaScript, jQuery, Meteor.js, MongoDB, Linux, and React on an Agile team to assist DoD client with real-time data collection solution
- Wrote test plans, unit tests, and test automation using Cypress, Jira, and Python to validate MeteorJS web app UIs and RESTful API functionality across different browsers and desktop devices along with BrowserStack A/B & manual testing

Associate Software Engineer, Fidelity Investments

Jan 2017 – May 2018

- Enabled eligible user base to move funds across external checking and Fidelity ETF accounts on fidelity.com by creating web app UIs and RESTful APIs with Angular, Cassandra, CSS/SASS, Git, HTML, JavaScript, Node, Redux, & TypeScript
- Developed UI, RESTful API, and end to end test plans and automation suites with Mocha, Chai, Selenium, Robot Framework, Jasmine, and Postman to assure online bank transfer product quality for 5 fidelity.com development teams

Projects

Home Site and Portfolio – syrusgaddy.com

- Node site hosting CV, mock sites, & UI designs with React state management and responsive CSS graphics/animations

Education

Fayetteville State University – Bachelor of Science Computer Science, Mathematics Minor

May 2016
